PROFILE

Java Full Stack Developer with expertise in Java, Spring Boot, React.js, SQL, and REST APIs, focused on building scalable, secure, and high-performance web applications.

SKILLS

Technical: Java, Spring Boot, Microservices, JavaScript, TypeScript, Node Js, React JS, Nextjs

Tools: AWS (S3, EC2), Git, Docker, Redis, MongoDB, PostgreSQL, MySQL, Socket.IO, Elasticsearch, SQS, **N8N**

EXPERIENCE

Vigility Technologies Private Limited

Noida, India

Full Stack Developer

Apr 2026 – Present

- Automated CI/CD with GitHub Actions and deployed scalable applications on AWS EC2 and S3, reducing manual deployment effort by 70%, media storage size by 40%, EC2 load by 25%, and achieving 99.9% uptime.
- Built a **queue-based** PDF report generation system for **Saraswat Bank**, enabling scalable processing of large reports and reducing application response time by 50%.
- Implemented Socket.IO for real-time notifications, enhancing user engagement by 35% and reducing notification delivery time by 40%, resulting in improved user interaction and satisfaction.

Hirring.com

Noida, India

Full Stack Developer

May 2025 – March 2026

- Implemented Spring Security with JWT-based authentication and role-based access control (RBAC) for 5,000+ users, leveraged Redis caching to reduce database load by 45%, and optimized database queries to improve API response times by 20%.
- Built automated AI-powered workflows in **n8n**, integrating services, background tasks, and API processing, reducing manual effort by 50%.
- Implemented Elasticsearch indexing for 1M+ records, achieving lightning-fast search responses under 100ms.
- Developed a distributed email processing system using message queues SQS capable of handling 10,000+ emails/day with priority-based delivery.
- Designed a distributed system architecture enabling seamless communication between 3+ microservices, including secure data exchange using encrypted formats for API-to-API communication.

Mityung Infotech Pvt Ltd.

Noida, India

Associate Software Engineer

Feb 2023 – July 2024

- Integrated third-party APIs for payment processing with HDFC, CCAvenue, and LoanTap, enhancing transaction flow and improving processing speed by 30%.
- Implemented authentication mechanisms integrating social media (Google, Facebook) and SSO via cookie sharing, boosting user onboarding by 30%, reducing login time by 35%, and enhancing user experience by 20%.
- Developed a CCDA parsing library that converts CCDA files into JSON format, improving healthcare data extraction and integration, resulting in a 40% increase in processing efficiency.
- Enhanced UI performance by 60% using Redux and React Hooks and accelerated frontend development with Tailwind CSS, PrimeReact, ShadCN, and MUI, improving load times and development efficiency by 40%.

PROJECTS

Image Licensing eCommerce Website ([Creative Stock](#))

Dec 2024 – Feb 2025

Built an image-selling e-commerce app with buy, cart, wishlist, and search features using ReactJS, Java Spring Boot, MongoDB, Stripe, and AWS (S3 + EC2) with optimized compressed images.

EDUCATION

Veer Bahadur Singh Purvanchal University

Jaunpur, India

B.Tech in Computer Science and Engineering

2018 – 2022

ACHIEVEMENTS

- Contributed to an open-source GitHub project by enhancing product search accuracy and implementing improved filtering features.– [GitHub](#)
